

Andreas Vouyiouklarakis

Managing Director & Co-Founder | ORBIDRON

Andreas Vouyiouklarakis is the Managing Director and Co-Founder of ORBIDRON, leading the company's vision to transform maritime and industrial inspections through cutting-edge drone technology.

With a background that bridges engineering, business strategy, and entrepreneurship, he brings more than 15 years of experience in helping organizations evolve through innovation and data-driven solutions.

Before founding ORBIDRON, Andreas worked in management consulting, overseeing the implementation of multimillion-euro investment projects across diverse industries in Greece and Europe, collaborating with major industrial clients and international consulting networks. His ability to combine strategic insight with hands-on project execution shaped his approach to building high-performance, technology-oriented teams.

Since 2015, he has also been the Co-Owner and General Manager of GAKU, a well-known hospitality venture in Athens, where he oversees operations, growth strategy, and customer experience.

Andreas holds a Master's degree in Engineering Management from the University of Southern California and a Bachelor's degree in Business Administration from the American College of Greece.
